## Display Set-Up

### Step 1

Assemble frame on the ground by pushing in the button on the 90° Connectors (3) and inserting one each into two of the Steel Top Poles (2).

### Step 2

To create a larger width frame, your kit may come with Pole Connectors (5). Insert them between two Steel Top Poles (2) to create one long pole.

Insert this end into second pole

### Step 3

Insert the 3-Way Connector (4) into both Steel Top Pole (2) ends and place on the ground.

### Step 4

With the top portion of the frame on the ground, dig three 8" deep holes where the Connectors (3,4) touch the ground.

\*Use safety precautions before digging.

## Display Set-Up Continued...

### Step 5

Insert the Optional Ground Sleeves (6 - Sold Separately) into the ground holes. Pack dirt or sand around to hold them in place.

Loosen the Eye Bolts to prepare for the Steel Side Poles (1).

### Step 6

Place top section of frame on it's back and slide the Steel Side Poles (1) over the Connectors (3,4).

### Step 7

Flip the frame over again and insert the Steel Side Poles (1) into the Optional Ground Sleeves (6 - Sold Separately). Tighten the Eye Bolts to secure.

### Step 8

Grommets on banner attach to post with bungee cords, rope or zip ties (Not included)
