Display Set-Up

Step 1

Assemble hardware laying it on a flat clean surface. Do not attempt to stand or attach the hardware vertically until fully assembled. All parts are numbered for easy assembly.

Step 3

Using the Hex Bolts (4) and Washers (5) attach the bottom Shelf+ (9) to the frame. Hand tighten only.

Step 4

Using the Hex Bolts (4) and Washers (5) attach the top Shelf+ (9) to the frame. Hand tighten only.

Step 5

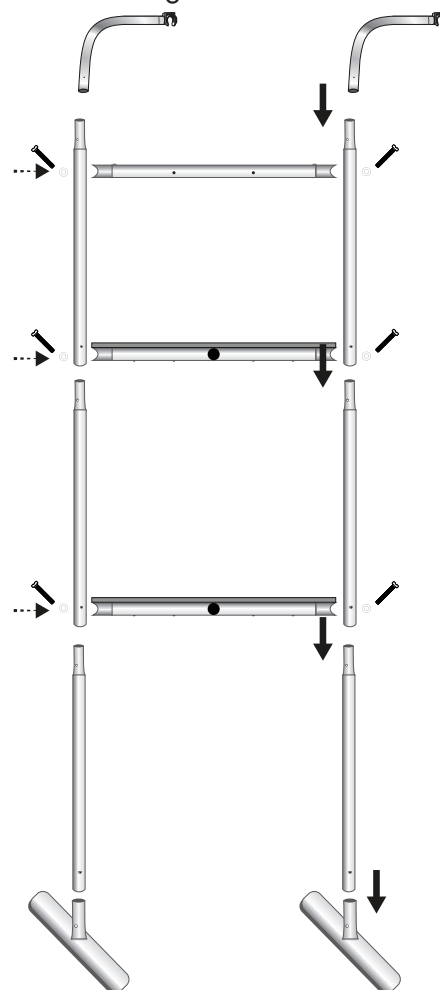

Using the Hex Bolts (4) and Washers (5) attach the Top Horizontal Pole (8) to the frame, making sure the bolts are facing towards the front. Hand tighten only.

Step 6

Using supplied #5 Hex Wrench (7) tighten all Hex Bolts (4).

Step 2

Fully assemble the left Side Poles (1), Feet (3), and Top Curved Corners (2). Match numbers marked on hardware. Repeat for the right side.

Display Set-Up Continued ...

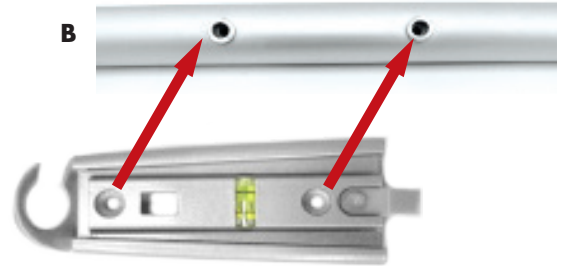

Step 7

Unscrew bolts from Top Horizontal Pole (8A) using supplied #4 Hex Wrench (6) for Mounting Bracket (11).

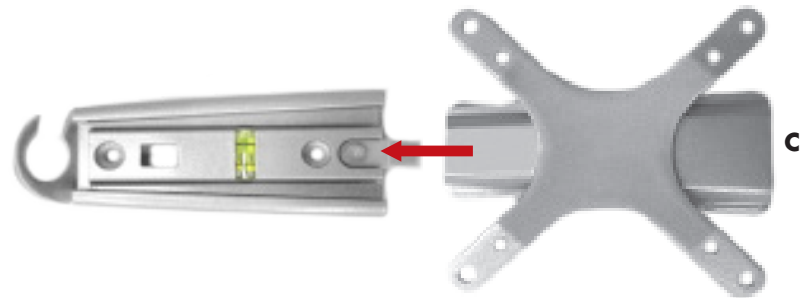

Step 8

Mount bottom half of Mounting Bracket (11) to Top Horizontal Pole (8B) with bolts just removed.

Step 9

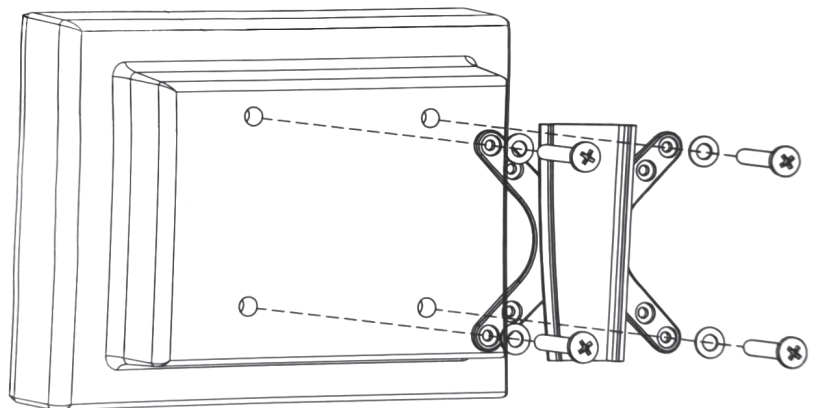

Slide top half of Mounting Bracket (11C) into bottom half of Mounting Bracket (11C). The tab will click when locked.

Mounting TV

We recommend using a TV no larger than 23". Please follow TV/Monitor manufactures recommendation for final mounting. Top half of Mounting Bracket will attach to back of most TV/Monitors.
