Product Parts

- 1 - Fiberglass Pole*
- 2 - Allen Wrench

*Qty is determined by product size

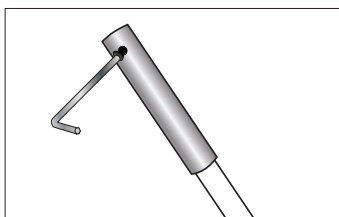

**Harness Sold Separately

Display Set-Up

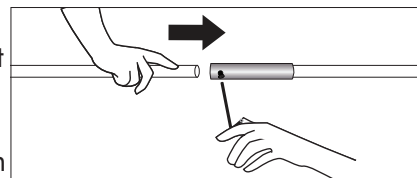

Step 1

Loosen the Screw on each Connector, located at the end of each Pole (1), with the Allen Wrench (2).

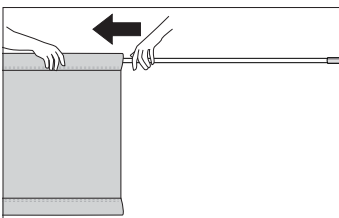

Step 2

Connect the Poles (1) by inserting the end without a connector into the end with the Connector. Once inserted 2" tighten with Allen Wrench (2).

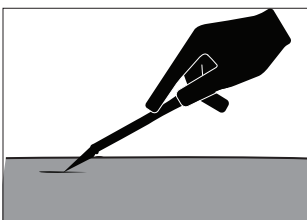

Step 3

Slide the Poles (1) into the pole pockets of the banner.

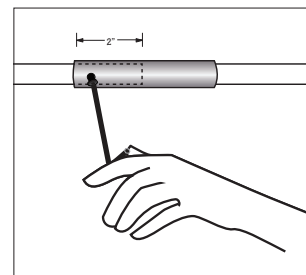

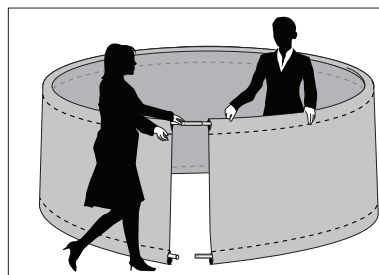

Step 5

Slits will need to be cut in vinyl banner based on position of harness support. Position of slits will vary.

Step 4 - Requires Two People

With one person on each end of the banner, bend the two ends of the Poles (1) together to make a circle. Repeat Step 2 to close the circle. Secure tightly top and bottom.

Storage

Disassemble frame by loosening screws of two connecting Poles (1). Bend the two rods so they are straight and pull apart. (They will not separate while in a circular shape.)

Store parts in a cool, dry location.

Care

To clean, wipe with damp cloth.
