

BIODEGRADABLE FABRIC

CERTIFICATE

This biodegradable media is made with CiCLO® technology.

During the production process, this sustainable textile additive is combined with the microfiber to create numerous biodegradable areas where microbes, that exist in certain environments, can break down the media as if they were natural fibers.

CiCLO® treated microfibers biodegrade 91.1% compared to untreated microfibers. Long-term studies* have proved that CiCLO® treated microfibers biodegrade at a rate comparable to wool.

* Biodegradation data is conducted and validated by an independent third-party laboratory using internationally recognized testing methods by The American Society for Testing and Materials (ASTM). Wastewater Treatment ASTM D5210, ASTM Soil D5988, Sea Water ASTM D6691, Landfill ASTM D5511 by the textile manufacturer. *Laboratory studies represent optimal conditions.*

This media is used on the following product lines: Eco-Wise Table Throw, EuroFit Banner Display and EuroFit Straight Wall.

THIS MEDIA IS

**HEAVY-METAL
FREE**

**PHTHALATE
FREE**

OEKO-TEX has provided a certificate of authenticity to the textile manufacturer for traceability. Tested to Prop 65 standards for phthalates, lead and cadmium.
