

# Replacement instructions of wireless charging pad on ShowGlower Power Station

ShowGlower  
Power Station

Existing Wireless  
Charging Pad

Replacement Wirless  
Charging Pad & Cord  
QiCertified

## Removing Existing Wireless Pad From Power Station

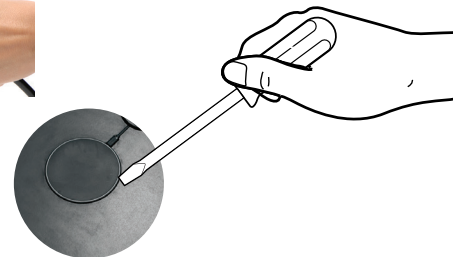

### Step 1

Please ensure display is disconnected from external power source.

### Step 2

Use a small flat edge screwdriver to gently pry existing Wireless Charging Pad from counter surface.

### Step 3

Unplug the existing USB-Micro cord from the Wireless Charging Pad.

### Step 4

Dispose of the Wireless Charging Pad according to local regulations.

**Note:** Existing cord that is plugged into Wireless Charging Pad can't be removed, and will not fit into new Wireless Charging Pad.

## Install New QiCertified Wireless Pad

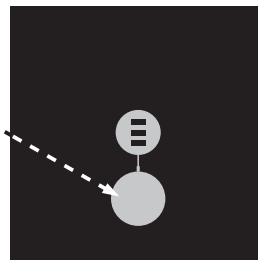

### Step 1

Affix black adhesive backed circle into opening.

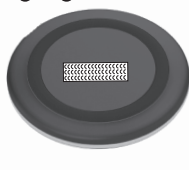

### Step 2

Affix hook or loop to backside of new Wireless Charging Pad.

### Step 3

Affix hook or loop on top of black circle.

### Step 4

Using either Option A or B plug in cord to the new Qi Certified charging pad, and press into place on the black circle.

**Option A:** Utilize one of the other three USB-Micro cords and plug into new Wireless Charging Pad.

**Option B:** Use USB-Micro/USB that is supplied with new Wireless Charging Pad and plug USB end into one of three ports in center.

# Replacement instructions of wireless charging pad on ShowGlower Power Tower

ShowGlower  
Power Tower

Existing Wireless  
Charging Pad

Replacement Wirless  
Charging Pad & Cord  
QiCertified

## Removing Existing Wireless Charging Pad From Power Tower

### Step 1

Please ensure display is disconnected from external power source.

### Step 2

Use a small flat edge screwdriver to gently pry existing Wireless Charging Pad from counter surface.

### Step 3

Unplug the existing USB-Micro/USB (smooth cord) from the Wireless Charging Pad. Remove the graphic if one is installed. Unplug USB-Micro/USB cord from the power supply, and remove the cord.

### Step 4

Dispose of the Wireless Charging Pad and cord according to local regulations.

## Install New USB-Micro/USB Cord

### Step 1

Disassemble the top portion of display, please refer to original assembly intructions that came with your display.

### Step 2

Remove the 4 screws from bottom of Counter Surface using 4mm Hex Wrench supplied with original hardware.

### Step 3

With the help of another person holding the existing braided cords up out of the way, remove the counter surface.

### Step 4

Take new replacement cord and push USB end down through main channel of the product. Use the 4mm Hex Wrench to help guide the new cord and pull enough through so that the new cord can be plugged into the power supply.

**Questions? Please call 1 - 888 - 376 - 7469** or see the instruction video at [Showdowndisplays.com](http://Showdowndisplays.com) and clicking on the **Safety/Compliance tab**.

## Replacement instructions of wireless charging pad on ShowGlower Power Tower continued.....

ShowGlower  
Power Tower

Existing Wireless  
Charging Pad
